

Appendix 2

Teacher Questionnaire Methodology Study of Traditional vs On-line Course Formats April 22, 2003

Please answer these questions and reply via email or hard copy. I will contact you after, to see if you are available for a face-to-face interview. Thank you.

1. Comments on the lesson plan for the class I observed?
2. What do you see as the major differences between the traditional and online formats?
3. In what specific ways do you change or adapt your teaching behavior when you move from traditional to online classes, or vice versa?
4. If you were to teach another teacher how to 'handle' or manage an OL format, what information would you include in their instruction?
5. Research in distance education [we might view online as a type of distance education] notes three key areas where traditional and distance learning formats are different:
 - interaction (T-S, S-T, S-S),
 - feedback (T-S, S-S), and
 - community (T-S, S-T, S-S).

Please comment on any/all of these areas particularly if you have noted strong similarities and/or differences between your T and OL formats.
